

HSPMD

Help Save People *with* Medical Disabilities

A group of **students** in Ms. Mekky's fifth grade class recently finished a Personalized Learning project to fundraise money for the University of Chicago Comer Children's Hospital. Comer Children's Hospital treats kids with the most simple of medical problems to very complicated conditions, such as cancer and diabetes. But, they need money to treat their many patients, and we want to help! Our fundraiser, HSPMD, is student organized. Our goal is to fund money for Comer Children's Hospital by using a drawing procedure.

Comer's Facts

- Located in Chicago
- Admit 5,000 patients each year
- Have 170 highly trained physicians
